

SD-180 INTRODUCTION TO MVC

Deliverables #1 (50%)

STUDENT: Li, Huijun

Correctness (35%)	Mark
No errors, program always works correctly and meets the specification(s)	5
Minor details of the program specification are violated, program functions incorrectly for some inputs.	
Significant details of the specification are violated, program often exhibits incorrect behavior.	
Program only functions correctly in very limited cases or not at all.	

Readability (20%)	Mark
No errors, code is clean, understandable, and well-organized.	
Minor issues with consistent indentation, use of whitespace, variable naming, or general organization.	4
At least one major issue with indentation, whitespace, variable names, or organization.	
Major problems with at three or four of the readability subcategories.	

Visual (10%)	Mark
Web design is complete, consistent, and appropriate regarding the project's stated purpose and meets a very high standard of quality.	5
Web design is complete, consistent, and appropriate regarding the project's stated purpose, and meets an average standard of quality. Minor technical glitches may be apparent.	
Web design is incomplete, inconsistent, unprofessional, inappropriate regarding site purpose, or meets a below-average standard of quality.	
Web design is incomplete, inconsistent, or inappropriate regarding site purpose, and/or meets a very low standard of quality. Styling, design errors, and/or major rendering inconsistencies are present.	

Assignment Specifications (35%)	Mark
Deliverables meet all the Technical Requirements	5
Deliverable are missing one or two Technical Requirements	
Deliverables are missing three or more Technical Requirements	
Deliverables don't meet any Technical Requirements.	

Total Mark %	96%
---------------------	------------

COMMENTS: JavaScript codes could have been moved to external files.

Final Mark % (50% Deliverables #1) + (25% Bootstrap Exercises and Templating) + (25% JavaScript Exercises)	96%
